**Trends in Cabin Lighting**

Is the LED the new king-of-the-hill, or are there still viable alternatives that can light up an executive cabin? What new technologies are on the horizon and much more. TVI invites contributions of news, guest articles and targeted advertising to support this topic. Space closing deadline: Nov. 15, 2004. See [www.tvi-magazine.com/contribute](http://www.tvi-magazine.com/contribute) for details.

**Special Directory & Buyer's Guide Edition**

Packed with hundreds of profiles on interior vendors and service providers, this handy resource will be referenced by buyers all-year-round. For more information, see [www.tvi-directory.com](http://www.tvi-directory.com)

**ON THE COVER**  
The Bombardier Global 5000: The airframer calls its cabin 'the most sophisticated in corporate aviation.' TVI (and one other magazine) got an exclusive to write about its trend-setting interiors. The aircraft is indeed a serious contender in the super-large-jet category. Photo courtesy of Bombardier Aerospace, Montréal, Canada.
